

Title: Nurse (Admin/Infection Control) GS-0610-11

Body: Infection Control Services, Quality Services Division

Full-time permanent position

If you are interested in applying for these positions, please feel free to forward the Madigan Nurse Recruiter a cover letter, resume, two to three references and possibly a Letter of Recommendation to usarmy.jblm.medcom-mamc.list.cpd@mail.mil. Participates in the implementing, coordinating, and administering of the hospital Infection Control Strategic Plan in a 204-bed, outpatient clinical regional medical center with level 2 trauma. Collaborates with the Chief of Infection Control Program. Assists in facilitating the facility's patient care missions and ensures quality patient care within the framework of established policy, standards of care, standards of practice, and regulatory requirements. Serves as a member of the patient safety committee and other committees as required. Provides academic and professional instructions to students, reserve personnel and all facility staff. As the clinical and functional expert assesses the infection control standards and practices throughout the facility and its outlying clinics and initiates changes when needed to and/or assigned. Participates in process action teams, work groups, clinical product teams, etc. as required/assigned.
